20th Century Regicide: The Controversial Nature of the Assassination of Martin Luther King Jr.

[Andrew Sussman, Huron University College, Western University](#)

Abstract

The purpose of this paper is to evaluate the circumstances surrounding the assassination of Martin Luther King Jr. in an attempt to provide evidence that supports the criteria of a conspiracy. Beginning by outlining a clear definition of a conspiracy, the paper attempts to provide a detailed description of the events leading up to, during, and following King's assassination, paying specific attention to the evidence related to James Earl Ray's involvement and the action and reaction of the Federal Bureau of Investigation. Drawing from a variety of sources published between 1968 and as recently as 2014, this paper ultimately concludes that the evidence to support the notion that the assassination of Martin Luther King Jr. met the criteria of a conspiracy involving more than just one person, and that the available evidence does not present a clear picture of exactly who else was involved.
