Climate change and the global harvest: potential impacts of the greenhouse effect on agriculture.

Author(s) : [Rosenzweig, C.](#) ; [Hillel, D.](#)

Book : [Climate change and the global harvest: potential impacts of the greenhouse effect on agriculture](#). 1998 pp.324 pp. ref.36 pp. of

Abstract : This book considers the greenhouse effect and global warming, emissions of greenhouse gases, the effect of carbon dioxide on climate change, crop yields, the effect of climate change on the effects of weeds, insects and diseases, the effect of soil resources on climate change processes, and the effects of climate change on

resources and sea-level rise. An analysis of climate change impacts is provided for the regions most at risk. The book concludes with a global assessment of food security, and considers adaptation to climate change, economic assessment and adaptation.
