## Abstract

This article presents an overview of the chemistry of metal complexes of dibenzotetraaza[14]annulenes, highlighting some of the recent developments. The title tetraazamacrocycles are related to the porphyrin family and typically possess a non-planar, saddle-shaped conformation. Their similarity to the porphyrins means that these synthetic macrocycles are of bioinorganic relevance. Their unique characteristics make them interesting ligands in their own right. In early transition metal chemistry, dibenzotetraaza[14]annulenes have been studied as potential alternatives to the ubiquitous porphyrins, while later transition metal derivatives can mimic certain biological systems and act as catalysts. The dibenzotetraaza[14]annulenes have also recently allowed advances in structural chemistry of organometallic and coordination compounds, including the stabilisation of new metal oxidation states.

Authors contributing to RSC publications (journal articles, books or book chapters) must obtain permission to reproduce material contained in this article provided that the copyright is not reproduced material.

Reproduced material should be attributed as follows:

- For reproduction of material from NJC:  
Reproduced from Ref. XX with permission from the Centre National de la Recherche Scientifique and the Royal Society of Chemistry.
- For reproduction of material from PCCP:  
Reproduced from Ref. XX with permission from the PCCP Owner Society.
- For reproduction of material from PPS:  
Reproduced from Ref. XX with permission from the European Society for Photochemistry and Physics, the European Photochemistry Association, and The Royal Society of Chemistry.
- For reproduction of material from all other RSC journals and books:  
Reproduced from Ref. XX with permission from The Royal Society of Chemistry.

If the material has been adapted instead of reproduced from the original RSC publication, it should be substituted with "Adapted from".

In all cases the Ref. XX is the XXth reference in the list of references.

If you are the author of this article you do not need to formally request permission to reproduce material contained in this article in third party publications or in a thesis or dissertation provided that the copyright is given with the reproduced material.

Reproduced material should be attributed as follows:

- For reproduction of material from NJC:  
[Original citation] - Reproduced by permission of The Royal Society of Chemistry, the Centre National de la Recherche Scientifique (CNRS) and the RSC
- For reproduction of material from PCCP:  
[Original citation] - Reproduced by permission of the PCCP Owner Society.
- For reproduction of material from PPS:  
[Original citation] - Reproduced by permission of The Royal Society of Chemistry, the European Society for Photochemistry and Physics, the European Photochemistry Association, and the Royal Society of Chemistry.
- For reproduction of material from all other RSC journals:  
[Original citation] - Reproduced by permission of The Royal Society of Chemistry.

If you are the author of this article you still need to obtain permission to reproduce publication with the exception of reproduction of the whole article in a thesis

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be recorded to ensure the integrity of the financial data. This includes not only sales and purchases but also expenses and income. The document provides a detailed list of items that should be tracked, such as inventory levels, supplier payments, and customer orders. It also outlines the procedures for recording these transactions, including the use of standardized forms and the importance of double-checking entries for accuracy.

The second part of the document focuses on the analysis of the recorded data. It describes various methods for identifying trends and anomalies in the financial records. This includes comparing current performance with historical data and industry benchmarks. The document also discusses the importance of regular audits to detect and correct any errors or discrepancies. It provides a step-by-step guide for conducting an audit, from the selection of samples to the final reporting of findings. The document concludes by emphasizing the value of accurate financial records in making informed business decisions and ensuring long-term success.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be recorded to ensure the integrity of the financial data. This includes not only sales and purchases but also expenses and income. The document provides a detailed list of items that should be tracked, such as inventory levels, supplier payments, and customer orders. It also outlines the procedures for reconciling accounts and identifying discrepancies. The second part of the document focuses on the analysis of the recorded data. It describes various methods for interpreting the information, such as comparing current performance with historical trends and industry benchmarks. The document also discusses the implications of the data for decision-making and provides recommendations for improving efficiency and profitability. Finally, the document concludes with a summary of the key findings and a call to action for the management team to implement the suggested changes.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be recorded to ensure the integrity of the financial data. This includes not only sales and purchases but also expenses and income. The text explains that proper record-keeping is essential for identifying trends, managing cash flow, and preparing for tax obligations.

Next, the document addresses the issue of budgeting. It suggests that creating a realistic budget is a key strategy for controlling costs and maximizing profits. The budget should be based on historical data and current market conditions. Regularly comparing actual performance against the budget allows for timely adjustments and helps in staying on track.

The third section focuses on the importance of regular financial reviews. It advises that business owners should conduct a thorough review of their financial statements at least once a month. This practice helps in spotting potential problems early and allows for proactive decision-making. The reviews should cover all aspects of the business, from sales performance to operational costs.

Finally, the document discusses the role of professional advisors. It recommends consulting with accountants and financial planners to ensure that the business is operating in compliance with all relevant laws and regulations. These professionals can provide valuable insights and help in optimizing the financial structure of the business.
