With this issue of the *Journal* (Volume 154, Number 1), we inaugurate an expansion of our Book Reviews section. Each issue of the *Journal* will now include a book review and an editor's note. The note will draw attention to book reviews appearing in other major journals and epidemiologic publications. At the outset, we will monitor the following journals: *Epidemiology*, the *International Journal of Epidemiology*, the *American Journal of Public Health*, the *Journal of Public Health Policy*, *Science*, the *New England Journal of Medicine*, and the *Journal of the American Medical Association*.

As a start, we draw your attention to a review of a book dealing with the history of coal mining in the United States and the consequent widespread prevalence of pneumoconioses (1). The reviewer, Abdur Rauf Shad, M.D., concludes his review by saying, "I found that the book helps...
