## International Handbook of Urban Systems

Edited by *H. S. Geyer*in [Books](#) from [Edward Elgar Publishing](#)

**Abstract:** This authoritative Handbook provides a comprehensive account of migration and economic development throughout the world, in both developed and developing countries. Some of the world's most experienced researchers in this field look at how population redistribution patterns have impacted on urban development in a wide selection of advanced and developing countries in all the major regions of the world over the past half century.
