Primary AIDS care. 3rd ed.

Author: Evian C

Source: Houghton, South Africa, Jacana Education, 2000 Jan. [10], 332 p.

Abstract: This book, entitled "Primary AIDS Care", provides primary health care personnel with a user-friendly guide and approach to managing people with HIV and AIDS. The book is composed of 15 chapters. The first 3 chapters provide a brief history of AIDS, its mode of transmission, development of HIV infection to full-blown AIDS, and its implication for primary health care. The subsequent chapters address areas such as HIV testing, counseling, terminal care, specific needs of women and children, risk and injury to health care personnel, reduction of mother-to-child transmission, tuberculosis and sexually transmitted diseases, and the management of people with HIV/AIDS. Throughout the book, the relevant socioeconomic, ethical, and moral issues are considered.
