Title: Rearing Turkeys in Uganda

Authors: [Trail J. C. M.](#)

Issue Date: 1962

Citation: East African Agricultural And Forestry Journal, 28, p. 64-66

Abstract: The turkey is a comparatively easy bird to rear in Uganda using conventional poultry equipment, provided correct management and feeding methods are applied. In company with ,the goose, the turkey makes by far the most efficient use of food of any farm poultry, and in fact is not surpassed in its ability to convert food into meat
