Gene dreams: Wall Street, academia and the rise of biotechnology.

Author(s) : [Teitelman, R.](#)

Book : [Gene dreams: Wall Street, academia and the rise of biotechnology.](#) 1989
ref.many

Abstract : In this popular account of the financial dealings associated with the development of biotechnology, the emphasis is on medical biotechnology and cancer research. However, useful insights are given into the pressures on pharmaceutical company directors and providers of venture capital, which have clear parallels with agricultural biotechnology. The initial enthusiasm of investors, followed by a

confidence and a demand for products, is described well. It is a readable into the stories and personalities at an interesting time in the development of no
