Arboriculture: integrated management of landscape trees, shrubs, and vines.

Author(s) : [Harris, R. W.](#)

Author Affiliation : Department of Environmental Horticulture, University of California, CA, USA.

Book : [Arboriculture: integrated management of landscape trees, shrubs, and vines](#)
2 pp.ix + 674 pp. ref.32 pp. of

Abstract : The revised edition of a book originally published in 1983 evaluates current information and maintenance practices and, where appropriate, reassesses these practices in the light of new information. Topics covered in the 23 chapters

shrubs and vines in the landscape; plant structure and selection; climate, soil preparation of the planting site; nutrient, water and soil management; pruning control of plants; management of tree hazards; diagnosis and control of pest diseases; and integrated plant management. The 6 appendices give common botanical names of plants, flood tolerant woody plants in the contiguous US, woody plants to landfills, sources of other plant lists, specifications for accepting nursery trees at the time of delivery, and pruning guidelines. A bibliography and index are included.

ISBN : 0130442801
