An introductory guide to disease mapping.

Author(s) : [Lawson, A. B.](#) ; [Williams, F. L. R.](#)

Editors : [Lawson, A. B.](#); [Williams, F. L. R.](#)

Book : [An introductory guide to disease mapping](#) 2001 pp.viii + 133 pp.

Abstract : The aim of this book is to provide an introduction to disease mapping and to provide the reader with the skills to construct and to interpret maps showing the distribution of disease. The book also aims to describe the role of disease mapping in epidemiology and to highlight its important role in studies of environmental epidemiology. The book is divided into 7 main sections, titled: visual perception and map construction; data types and sources; basic methods

design; advanced methods; public health surveillance and mapping. The book also includes an appendix listing software for disease mapping, a glossary and an index.
