Existentialism: A Reconstruction

David E. Cooper

Wiley-Blackwell (1999)

Authors

David Cooper

Durham University

Abstract

First published in 1990, *Existentialism* is widely regarded as a classic introductory survey of the topic, and has helped to renew interest in existentialist philosophy. The author places existentialism within the great traditions of philosophy, and argues that it deserves as much attention from analytic philosophers as it has always received on the continent
