**Introduction**

One of the most striking changes in the construction of medicine in the century has been the rise and fall of the spa and water cure in the English-speaking world. In a sense, the spa has been the dominant form of the physical therapy, the water cure, and the water cure has been the dominant form of the physical therapy. The spa and water cure have been the dominant form of the physical therapy, and the water cure has been the dominant form of the physical therapy. The spa and water cure have been the dominant form of the physical therapy, and the water cure has been the dominant form of the physical therapy.
