Rationality in Greek Thought

Michael Frede & Gisela Striker (eds.)

Oxford University Press (1996)

Authors

Gisela Striker

Harvard University

Abstract

This book, a collection of specially written essays by leading international scholars, reexamines ancient ideas of reason and rationality. The application of changing notions of rationality down the ages has led to consistent misinterpretation of standard ancient philosophical texts: the distinguished contributors here redress the balance, clarifying how the great thinkers of antiquity themselves conceived of rationality.
