**Abstract or Description:**

The Craft Reader, edited by Adamson, was praised by Barry S  
 'kaleidoscopic mix of materials', 'put[ting] just enough orde  
 down.' Covering the period from the early 19th century to th  
 commissioned writings. The anthology is organised chronol  
 such as craft's putative opposition to industry; the revival an  
 theorisations of craft's relations to fine art.  
 Another novel feature of the anthology is its geographical an  
 Gropius and William Morris are represented, The Craft Read  
 considers unexpected contexts in Europe and America (such  
 this selection, the book greatly expands the frame of referenc  
 The texts were selected by Adamson from books, magazines,  
 and online sources. This required an intensive period of rese  
 Adamson wrote long introductory essays for each section of  
 Unlike most scholarly anthologies, The Craft Reader is more  
 conceptual and historical structure for this emerging field of  
 a large readership among practitioners and students, and ga  
 Modern Painters, Art in America, and Crafts, and in scholarl  
 Craft Research.
