Implementation of interactive learning capabilities via electronic story book and communicative blogs

Ryait, Disney

URI: <http://hdl.handle.net/10211.10/558>

Date: 2010

Abstract:

The focus of the thesis project is to develop a teaching tool which would provide the capability for teacher lessons on a website by uploading digital media which could be audio, video or images using a web user interface tool enables interactive learning capability and provides online social networking for students as well as a motivation behind this thesis project was to create a tool for learning the Punjabi language which is an Indian language tool was mainly designed for teachers to interact with Indian students who are born in the U.S. and want to learn Punjabi language and about their culture. But later this project was expanded to support more than fifty languages and for Punjabi teacher's but also can be used by teachers of any language. This project also has a lot of scope for customization to support a variety of users.
