Abstract

Most colleges and universities with teacher training programs have collections of children's books. In many cases, the librarians who are responsible for selecting these books have a number of other responsibilities as well. The workshop for which this bibliography was prepared was designed for those busy librarians who are not always able to devote the time they would like to the selection of children's books. It explored selected "best" picture books published during 2010 and 2011.
