**Abstract**

This paper explains how the intensification of globalization as has increased the occurrence of terrorism from above (i.e. state actors) and below (i.e. non-state actors). We cannot adequately grasp the nature of modern terrorism without understanding the larger cultural and political contexts in which it takes place. Since terrorism has been broadly defined, and theorized by those who have contradictory interpretations, there is a significant gap in establishing a common understanding among the scholars. Most experts on the subject look at this issue from a narrow perspective that terrorism
