Abstract This book explores the factors behind – and the implications of – the 2006 coup. It brings together contributors from a range of disciplines – including political scientists, anthropologists, historians, sociologists, linguists, economists, geographers, lawyers, journalists, soldiers and politicians – including deposed Prime Ministers Laisenia Qarase and Frank Bainimarama. *End All Coups?* is essential reading for those with an interest in the contemporary history of Fiji, politics in the Pacific and the challenges of democratic development.
