| Abstract | This introductory text uses philosophical guidelines to assist readers in making ethically sound choices in nursing. It explores both traditional and controversial ethical theories and changing trends in the health field, such as managed care. The book includes numerous clinical case studies within each chapter, as well as "what if" questions to help readers apply theory to real events. |
| Notes | 23 cm.The moral significance of nursing -- Models of professional relationships -- Self-interest morality -- Virtue ethics in nursing -- Consequentialist of utilitarian ethics -- Duty-based ethics : universal moral principles -- Rights-based ethics -- Ethical decision making in nursing -- Nursing ethics in the procreative family -- Ethics and the problem of abortion -- Ethical issues in the nursing care of infants -- Ethical issues in the nursing care of children -- Ethical issues in the nursing care of adolescents -- Ethical issues in the nursing care of adults -- Ethical issues in the nursing care of the elderly -- Ethical issues in the nursing care of the dying.Includes bibliographical references and index.Elsie L.
