Optimal energy growth lower bounds for a class of solutions to the vectorial Allen-Cahn equation

[Christos Sourdis](#)

(Submitted on 16 Feb 2014 (v1), last revised 18 Feb 2014 (this version, v2))

We prove optimal lower bounds for the growth of the energy over balls of minimizers to the vectorial Allen-Cahn energy in two spatial dimensions, as the radius tends to infinity. In the case of radially symmetric solutions, we can prove a stronger result in all dimensions.
