Book : [Vanishing treasures of the Philippine rain forest.](#) 1998 pp.viii + 88 pp. ref.4

Abstract : This is a profusely illustrated (in full colour) book published to celebrate the centennial of Philippine independence and an exhibit at the Field Museum in Chicago. The book celebrates the extraordinary biodiversity of the Philippine rain forest, which contains many unique species. Nearly half of the mammals and birds are endangered. The book contains chapters which cover the biodiversity characteristics of the rain forest, the dimensions of the biodiversity, examples of endangered species (animals and

causes and effects of deforestation, and the prospects for recovery. An inc
