(81)

This article approaches the repression and legitimation of social movements through a framework that combines the theories of identity frames and security discourse. The Democracy Wall movement of 1978-81 and the Student Movement of 1989 are used as case studies. The article shows how various identity frames, which both shape and are shaped by their interactions, can be seen as attempts both to legitimize and to challenge the security discourse. This combination provides a framework to conceptualize the interaction between protest movements and the state.
