Abstract

The Appalachian region is home to a number of culinary traditions, unique to the area. These traditions have persisted in a rural setting, becoming largely homogenized. Using primary sources from the region, such as historic cookbooks, archived newspaper articles, and oral history research depicts a unique regional rural food tradition that has persisted to this day. Comparisons are made to other regional rural diet traditions and documented historic trends in traditional erosion as seen at the rural and suburban levels, to support not only the historic food tradition but also the evolution of the Appalachia diet.

Subject(s)

Human geography - Appalachian Region.
