## Islands under siege: national parks and the politics of external threats.

Author(s) : [Freemuth, J. C.](#)

Book : [Islands under siege: national parks and the politics of external threats.](#) 19 ref.

Abstract : Increasingly, national parks have come under environmental attack from sources outside the parks, beyond the jurisdiction of the Park Service. Smog from neighbouring cities now obscures famous vistas. Noise and water pollution from industries spills across park boundaries. Acid rain eats away at old-growth forests. In the US context, the book sees these new external assaults as political products of

examines the questions they raise, traces the shifts in government action t accompanied waves of citizen activism, and uncovers evidence of ineffectiv inept implementation, and the potent political power of pro-development fo the Park Service hampered by unclear, conflicting priorities and political cont from above. Finally, it analyses a diverse set of political strategies that have being used to deal with the threats to American national parks, evaluating e environmental effectiveness and political feasibility.
