Terms such as 'navigation' and 'information orienteering' describe the way users interact with information spaces such as the Web or digital libraries. In these spaces, the user is in control of the interaction, moving deliberately through the work on situated cognition, users often behave much more fluidly. In this paper we report on user behaviour in a fluid way. In this paper we report on user behaviour focusing particularly on situations where users were sw

Type: Proceedings paper**Title:** Shooting the information rapids**ISBN-13:** 9782854285642**Open access status:** An open access version is available from**Publisher version:** <http://www.cepadues.com/>**Language:** English**Additional information:** The IHM-HCI Conference (IHM-HCI'2001) was held in France. For information see <http://www.cepadues.com/> and <http://eprints.ucl.ac.uk/16837/> and <http://www.cepadues.com/> conference. Many of the papers from the conference are available in the 'People and Computers XV - Interaction' proceedings.

Keywords: Digital libraries, navigation, usability
