Abstract

There are many ways of presenting the history of the left. In this book, the author challenges the trivializing struggles of the last 150 years, focusing on Marx's emancipation that have characterized European and world history. This book builds on the previous one, analysing the emergence and evolution of the relation between knowledge, left politics, and emancipation. It seeks to institutionalize the relation between humanity and nature in the discussions of Marxism, Critical Theory, Anarchism, Surrealism, and Postmodernism.

from Marx to the Present is a valuable tool for understanding political world.

Item Type: Book

The book analyses the emergence and development of the relation between knowledge, politics and economics.

Additional Information: The book attempts to institutionalise the relation between human knowledge and politics. It provides accounts of Marx, Western Marxism, the Frankfurt School, post-structuralism and global anti-capitalism, the history of the political economy and the critique of daily life.
